Executive Summary

Elsevier | MC Strategies has been committed to providing the highest level of educational services to healthcare professionals since 1986. Our expert content today is used by 2.5 million active learners at more than 1,500 healthcare organizations nationwide. Clients include integrated health delivery networks, hospitals, academic institutions and federal government facilities.

In 2005, MC Strategies, Inc. was acquired by Elsevier, the world's largest publisher of healthcare educational materials. Elsevier produces more than 2,000 journals and 1,900 new books annually, including benchmark reference works, such as *Gray's Anatomy*.

We've created a library of more than 5,000 accredited professional e-Learning courses. Elsevier | MC Strategies' courses cover the full spectrum of healthcare, from acute care nursing and technologist education to hospital leadership, medical coding, and finance and information technology. We also have developed more than 14,000 custom lessons for clients and regularly partner with professional organizations to develop and/or deliver exclusive, specialty-specific courses and content.

About the Learning Management System

Our Learning Management System (LMS) is a powerful eLearning platform that makes the continuing education process simple to use and administer. The first ever Internet-based learning system to be certified by the American Standard Training organization (AST), the LMS provides unrivaled flexibility by offering self-paced, anywhere/anytime education and single-screen access to all continuing education activities, schedules and records.

Elsevier | MC Strategies' LMS also streamlines the education management process by providing administrators and staff educators with a range of tools for tracking student progress, viewing testing results and customizing continuing education programs to meet individual staff needs. In addition, transcripts and other important documentation necessary to meet accreditation and regulatory requirements are produced and retained in a remote, fail-safe database.

The increasingly important role of continuing education in healthcare demands a comprehensive solution that can meet diverse learning needs throughout an organization in an effective, cost-efficient manner. With Elsevier | MC Strategies, you'll have access to a vast array of accredited lessons created by the world's largest producer of healthcare educational content. You'll also enjoy the many delivery features, benefits and administrative tools that the LMS provides. Taken together, these components represent the most powerful educational solution on the market today.

Three screens from the Emergency Nursing Orientation Online Course. Self-check activities (such as the game shown here) keep learners engaged.

Our courses typically feature multimedia elements, including this example of bronchial lung sounds.

Introduction to Nursing

At Elsevier | MC Strategies, we know the importance of education and strive to provide learning opportunities for nurses — in all specialties, at all stages of their careers.

As part of the world-leading publisher of scientific, technical and medical information products and services, Elsevier | MC Strategies provides proprietary education through some of the world's premier names in healthcare publishing, including **Mosby** and **Saunders**. Our extensive courseware library is complemented with content that we distribute or create exclusively through collaboration with leading nursing professional organizations, such as the American Association of Critical Care Nurses (AACN), the Emergency Nurses Association (ENA) and the National Nursing Staff Development Organization (NNSDO).

AACN: Basic ECG Interpretation	Total Lessons: 7/CE Hrs: 6
---------------------------------------	-----------------------------------

- Cardiac Anatomy and Physiology
- ECG Interpretation Basics
- Sinus Rhythms
- Atrial Rhythms
- Junctional Rhythms
- Ventricular Rhythms
- Heart Block Rhythms

AACN: Essentials of Critical Care Orientation (ECCO) 2.0	Total Lessons: 49/CE Hrs: 69
---	-------------------------------------

- Essentials of Critical Care Orientation 2.0: Introduction
- Introduction to Care of the Critically Ill: Introduction to AACN
- Introduction to Care of the Critically Ill: Care of Specialty Populations in the Critical Care Unit
- Introduction to Care of the Critically Ill: Organizing the Care of the Critically Ill Patient
- Introduction to Care of the Critically Ill: Evidence-Based Practice
- Introduction to Care of the Critically Ill: Special Procedures in the Critical Care Unit
- Care of the Patient with Cardiovascular Disorders: Cardiovascular System Anatomy and Physiology
- Care of the Patient with Cardiovascular Disorders: Assessing the Cardiovascular System
- Care of the Patient with Cardiovascular Disorders: Management of Acute Coronary Syndromes
- Care of the Patient with Cardiovascular Disorders: Pathologic Conditions
- Care of the Patient with Cardiovascular Disorders: Cardiac Surgery
- Care of the Patient with Cardiovascular Disorders: Cardiac Pacemakers
- Care of the Patient with Pulmonary Disorders: Pulmonary System Anatomy and Physiology
- Care of the Patient with Pulmonary Disorders: Respiratory Assessment
- Care of the Patient with Pulmonary Disorders: Pathologic Conditions
- Care of the Patient with Pulmonary Disorders: Airway Management
- Care of the Patient with Pulmonary Disorders: Basic Ventilator Management
- Care of the Patient with Pulmonary Disorders: Thoracic Surgical Procedures
- Basic Hemodynamic Monitoring: Basics of Hemodynamic Monitoring Systems
- Basic Hemodynamic Monitoring: Arterial Pressure Monitoring
- Basic Hemodynamic Monitoring: Central Venous Pressure Monitoring
- Basic Hemodynamic Monitoring: Pulmonary Artery Catheters
- Basic Hemodynamic Monitoring: Cardiac Output Monitoring
- Basic Hemodynamic Monitoring: Oxygenation and Transport
- Basic Hemodynamic Monitoring: Pharmacologic Management of Hemodynamics
- Care of the Patient with Neurologic Disorders: Neurologic System Anatomy and Physiology
- Care of the Patient with Neurologic Disorders: Assessment and Diagnostic Techniques
- Care of the Patient with Neurologic Disorders: Neurologic Monitoring
- Care of the Patient with Neurologic Disorders: Ischemic and Hemorrhagic Stroke
- Care of the Patient with Neurologic Disorders: Other Pathological Conditions
- Care of the Patient with Gastrointestinal Disorders: Gastrointestinal System Anatomy and Physiology
- Care of the Patient with Gastrointestinal Disorders: Diagnostic Testing
- Care of the Patient with Gastrointestinal Disorders: Pathologic Conditions
- Care of the Patient with Gastrointestinal Disorders: Nutritional Support of the Critically Ill Patient
- Care of the Patient with Renal Disorders: Renal System Anatomy and Physiology
- Care of the Patient with Renal Disorders: Renal Assessment and Monitoring
- Care of the Patient with Renal Disorders: Fluid and Electrolyte Disturbances

AACN: Essentials of Critical Care Orientation (ECCO) 2.0 (cont.)

**Total Lessons: 49
CE Hrs: 69**

Care of the Patient with Renal Disorders: Renal Disease
Care of the Patient with Renal Disorders: Renal Replacement Therapy
Care of the Patient with Endocrine Disorders: Endocrine System Anatomy and Physiology
Care of the Patient with Endocrine Disorders: Endocrine System Assessment
Care of the Patient with Endocrine Disorders: Pathologic Conditions
Care of the Patient with Endocrine Disorders: Managing Hyperglycemia in the Critically Ill Patient
Care of the Patient with Hematologic Disorders: Hematologic System Anatomy and Physiology
Care of the Patient with Hematologic Disorders: Hematologic Diagnostic Tests
Care of the Patient with Hematologic Disorders: Pathologic Conditions
Care of the Patient with Multisystem Disorders: Shock
Care of the Patient with Multisystem Disorders: Sepsis, Systemic Inflammatory Response Syndrome and Multiple Organ Dysfunction
Care of the Patient with Multisystem Disorders: Overdose

AACN: Essentials of Nurse Manager Orientation (ENMO)

Total Lessons: 30/CE Hrs: 40

Introduction
The Science: Financial Management in Healthcare Organizations: Introduction to Healthcare Economics in the United States
The Science: Financial Management in Healthcare Organizations: Basic Finance Concepts
The Science: Financial Management in Healthcare Organizations: Operating Budgets for a Nursing Unit
The Science: Financial Management in Healthcare Organizations: Capital Budgeting for a Nursing Unit
The Science: Human Resource Management: Overview of the HR Scenario
The Science: Human Resource Management: HR Basics for Nurse Managers
The Science: Human Resource Management: Recruiting Nurses
The Science: Human Resource Management: Performance Management
The Science: Human Resource Management: Retention
The Science: Human Resource Management: Managing Separation
The Science: Quality Management in Healthcare Organizations: An Overview of Quality Management in Healthcare
The Science: Quality Management in Healthcare Organizations: Common Quality Management Processes and Tools
The Science: Quality Management in Healthcare Organizations: Quality Management of a Nursing Unit
The Science: Foundational "Thinking" Skills: The Importance of "Thinking" Skills
The Science: Foundational "Thinking" Skills: "Thinking" Skills for Nurse Managers
The Science: Foundational "Thinking" Skills: "Thinking" Skills Applied
The Science: Strategic Management in Healthcare Organizations: Foundations of Strategic Management
The Science: Strategic Management in Healthcare Organizations: Strategic Planning in a Nursing Unit
The Science: Strategic Management in Healthcare Organizations: Operational Plan
The Art: Lead Your Team: Key Attributes of a Leader
The Art: Lead Your Team: Roles and Responsibilities of a Leader
The Art: Lead Your Organization: Leadership as the Key to Organizational Growth
The Art: Lead Your Organization: Best Practices in Leading Organizations
The Leader Within: Creating a Leader Within Yourself: Personal Growth and Development
The Leader Within: Creating a Leader Within Yourself: Ethical Behavior and Practice
The Leader Within: Creating a Leader Within Yourself: Role Negotiation
The Leader Within: Creating a Leader Within Yourself: Career Planning
The Leader Within: Creating a Leader Within Yourself: Professional Association and Certification
The Leader Within: Creating a Leader Within Yourself: Reflective Practice

AACN: Palliative Care

Total Lessons: 4/CE Hrs: 3.5

Symptom Management and Comfort Care
Communication and Conflict Resolution
Withdrawing and Withholding Life Support

The Preceptor Challenge: The AACN Preceptor Development Program
Total Lessons: 9/CE Hrs: 3.5

Your New Precepting Role

Role 1: Role Model
Role 2: Socializer
Role 3: Educator
Summary

Dive In: Becoming an Educator

Job 1: Assessing
Job 2: Planning
Job 3: Implementing
Summary

Dive Deeper: Advancing as an Educator

Job 1: Evaluating Preceptees
Job 2: Identifying Skill Levels
Job 3: Negotiating Pitfalls
Summary

Program Conclusion

Assessment

AORN : Periop101™ A Core Curriculum

Total Lessons: 25/CE Hrs: 40

Anesthesia
Aseptic Technique
Documentation
Electrosurgery
Endoscopic Surgery
Environmental Sanitation and Terminal Cleaning
Hemostasis, Sponges, and Drains
Introduction to Perioperative Nursing
Critical Thinking
Natural Latex Allergy Sensitivity
Medications and Solutions
Patient and Family Education
PeriAnesthesia Nursing
Perioperative Assessment
Positioning the Patient
Professionalism
Safety in the Surgical Suite
Scrubbing, Gowning, and Gloving
Skin Prep
Specimens
Sterilization and Disinfection
Surgical Instruments
Surgical Draping
The Surgical Environment
Wound Closure and Healing

Apex imPULSE ECG

Total Lessons: 6/CE Hrs: 25

Level I—Basic ECG
Level II—Obtaining ECGs and Troubleshooting
Level III—Heart Rhythms and Interventions
Level IV—12-Lead ECGs
Level V—Acute Coronary Syndrome
Level VI—Advanced and Special Situations
Level VII—Reference Library

Apex Hemispheres

Total Lessons: 9/CE Hrs: 38

- Level I—Brain Anatomy & Physiology
- Level II—Stroke Pathophysiology
- Level III—Pre-Hospital and Emergency Stroke
- Level IV—In-Hospital Ischemic Stroke
- Level V—In-Hospital Hemorrhagic Stroke
- Level VI—Stroke Prevention
- Level VII—Excellence in Stroke Care
- Level VIII—NIH Stroke Scale Training & Certification

ENA: Emergency Nursing Certification Review

Total Lessons: 20/CE Hrs: 25.43

- A Review of the CEN Exam
- Patient Care Management Issues
- Professional Issues
- Shock and Multisystem Trauma
- Neurological Emergencies
- Environmental Emergencies
- Toxicology
- Medical Infectious Disease and Hematology
- Medical Fluid and Electrolyte Imbalances
- Cardiovascular Disorders, Part I
- Cardiovascular Disorders, Part II
- Gastrointestinal Emergencies
- Genitourinary and Obstetrical and Gynecological Emergencies
- Orthopedic and Integument Emergencies
- Maxillofacial and Ocular Emergencies
- Respiratory Emergencies, Part I
- Respiratory Emergencies, Part II
- Psychological and Social Issues
- Practice CEN® Exam 1
- Practice CEN® Exam 2

ENA: Emergency Nursing Orientation

Total Lessons: 44/CE Hrs: 64.9

- Introduction to Emergency Nursing
- Legal and Regulatory Constructs
- Cultural Dimensions
- Patient Education
- Drug Calculations
- Priority Setting and Patient Assessment
- Emergency Medical Services/Transport
- Vascular Access and Fluid Replacement
- Wound Management
- Pain Management
- Organ/Tissue Donation and End-of-Life Care
- Emergency Operations Preparedness
- Basis of Trauma Management
- Head Trauma
- Spinal Trauma
- Thoracic Trauma
- Gastrointestinal Trauma
- Renal and Genitourinary (GU) Trauma
- Orthopedic and Neurovascular Trauma
- Burns
- Maxillofacial Trauma
- Pediatric Trauma
- Elder Trauma
- Obstetric Trauma
- Respiratory Emergencies

ENA: Emergency Nursing Orientation (cont)

Total Lessons: 44/CE Hrs: 64.9

Cardiovascular Emergencies
Shock Emergencies
Neurologic Emergencies
Gastrointestinal Emergencies
Renal and Genitourinary Emergencies
Fluids and Electrolytes
Endocrine Emergencies
Hematologic Emergencies
Toxicologic Emergencies
Gynecologic Emergencies
Dental, Ear, Nose and Throat Emergencies
Ocular Emergencies
Infectious and Communicable Diseases
Obstetric Emergencies
Pediatric Emergencies
Abuse, Neglect and Violence
Behavioral Health Emergencies
Substance Abuse
Bonus! Alcohol Screening, Brief Intervention and Referral to Treatment (SBIRT) Toolkit

ENA: Emergency Nursing Triage

Total Lessons: 18/CE Hrs: 17.4

Introduction to Triage
The Triage Process, Part 1
The Triage Process, Part 2
Legal Issues in Triage
Special Patient Populations
Triage and Challenging Situations
Red Flags at Triage
Triage and Violence
Triage and Disaster/Mass Casualty
Chief Complaints: The Trunk
Chief Complaints: Airway and Breathing
Chief Complaints: The Head
Chief Complaints: The Face
Chief Complaints: Infectious Diseases
Chief Complaints: Wound and Extremity
Chief Complaints: Traumatic Injuries
Chief Complaints: Behavioral Health
Bonus! Alcohol Screening, Brief Intervention and Referral to Treatment (SBIRT) Toolkit

Mosby's ECG Interpretation

Total Lessons: 18/CE Hrs: 16.5

Overview of the Heart (3 lessons)
Understanding Cardiac Dysrhythmias (11 lessons)
Introduction to 12-Lead ECG Analysis (3 lessons)
Rhythm Interpretation for Monitor Technicians (1 lesson)

Mosby's Essential Nursing CE

Total Lessons: 103*/CE Hrs: 158.6

* A lesson may be included in more than one category.

Diseases and Conditions (46 lessons)
Ethical and Legal (15 lessons)
Infection Control (11 lessons)
Leadership and Management (11 lessons)
Medication Safety (7 lessons)
Procedures and Skills (76 lessons)
Patient Safety (21 lessons)
Workplace Environment (9 lessons)

Mosby's Healthcare-Associated Conditions & Medication Safety

Total Lessons: 12/CE Hrs: 16.8

Antithrombotic Therapy
Central Venous Access Infection
Communicating/Transcribing Med Orders
Infusion Therapy: Pediatric Safety
Moderate Sedation
Pneumonia
Polypharmacy in the Elderly
Pressure Ulcers
Safe Use of Insulin
Surgical Site Infection
Urinary Tract Infections
Ventilator-Associated Pneumonia

Mosby's Medical-Surgical Nursing

Total Lessons: 156/CE Hrs: 66.3

The Musculoskeletal System (9 lessons)
The Gastrointestinal System (9 lessons)
The Genitourinary System (6 lessons)
The Renal System (5 lessons)
The Female Reproductive System (13 lessons)
The Male Reproductive System (8 lessons)
The Metabolic and Endocrine System (14 lessons)
The Integumentary System (7 lessons)
The Cardiac and Vascular System (18 lessons)
The Respiratory System (12 lessons)
The Neurologic System (17 lessons)
The Hematopoietic System (7 lessons)
The Eyes (4 lessons)
The Ears (3 lessons)
Care of Older Adults (3 lessons)
Current Trends in Healthcare (3 lessons)
Pain Management (3 lessons)
Infection Control (3 lessons)
Care of Mental Health Clients (5 lessons)
Early Recognition of Shock (4 lessons)

Mosby's Neonatal Nursing

Total Lessons: 34/CE Hrs: 54.0

High-Risk Perinatal Issues (2 lessons)
Concepts of Neonatal Care (4 lessons)
Body Systems (17 lessons)
Neonatal Issues (5 lessons)
Neonatal Infection (1 lesson)
Pain Management/Paralytic Agents (1 lesson)
Developmental Care (2 lessons)
Family-Centered Care (2 lessons)

Mosby's Nursing Assistant Orientation

Total Lessons: 117

Introduction to Healthcare Agencies (2 lessons)
The Nursing Assistant (3 lessons)
Work Ethics (2 lessons)
Communicating with the Health Team (2 lessons)
Assisting with the Nursing Process (1 lesson)
Understanding the Person (2 lessons)
Body Structure and Function (5 lessons)
Growth and Development (4 lessons)
Care of the Older Person (2 lessons)

Mosby's Nursing Assistant Orientation (cont.)

Total Lessons: 117

Safety (4 lessons)
Restraint Alternatives and Safe Restraint Use (2 lessons)
Preventing Infection (4 lessons)
Body Mechanics (5 lessons)
The Person's Unit (1 lesson)
Bedmaking (2 lessons)
Personal Hygiene (3 lessons)
Grooming (2 lessons)
Urinary Elimination (3 lessons)
Bowel Elimination (4 lessons)
Nutrition and Fluids (5 lessons)
Measuring and Reporting Vital Signs (3 lessons)
Exercise and Activity (3 lessons)
Comfort, Rest and Sleep (2 lessons)
Admission, Transfers and Discharges (1 lesson)
Assisting with the Physical Examination (2 lessons)
Collecting and Testing Specimens (3 lessons)
The Person Having Surgery (2 lessons)
Wound Care (3 lessons)
Heat and Cold Applications (2 lessons)
Oxygen Needs (3 lessons)
Rehabilitation and Restorative Care (1 lesson)
Hearing and Vision Problems (2 lessons)
Common Health Problems (8 lessons)
Mental Health Problems (3 lessons)
Confusion and Dementia (2 lessons)
Developmental Disabilities (3 lessons)
Sexuality (1 lesson)
Caring for Mothers and Newborns (4 lessons)
Basic Emergency Care (6 lessons)
The Dying Person (5 lessons)

Mosby's Patient Safety

Total Lessons: 16/CE Hrs: 25.0

Anaphylactic Shock
Child Sexual Abuse
Dementia, Delirium and Depression
Domestic Violence
Elder Abuse
Failure Mode and Effect Analysis
Failure to Rescue
Hospitalized Patient with Dementia
Impaired Nurse
Latex Allergy
Mechanical Ventilation I
Mechanical Ventilation II
Physical Restraints
Root Cause Analysis
Sexual Assault
Transfusion of Blood and Blood Components

Mosby's Pediatric Nursing

Total Lessons: 33/CE Hrs: 23.2

Assessment of the Child and Family (3 lessons)
Family-Centered Care During Hospitalization (3 lessons)
The Child with Respiratory Dysfunction (4 lessons)
The Child with Gastrointestinal Dysfunction (4 lessons)
The Child with Cardiovascular Dysfunction (3 lessons)
The Child with Hematologic or Immunologic Dysfunction (3 lessons)
The Child with Genitourinary Dysfunction (2 lessons)
The Child with Cerebral Dysfunction (4 lessons)

Mosby's Pediatric Nursing (cont.)

Total Lessons: 33/CE Hrs: 23.2

The Child with Endocrine Dysfunction (1 lesson)
The Child with Musculoskeletal or Articular Dysfunction (2 lessons)
The Child with Neuromuscular or Muscular Dysfunction (2 lessons)
The Child with Special Needs (1 lesson)
The Care of Children at the End of Life (1 lesson)

Mosby's Preceptor

Total Lessons: 15/CE Hrs: 40.49

Role of a Preceptor
Teaching/Learning Process: Learning Styles
Teaching/Learning Process: Adult Learning Principles and Competency
Teaching/Learning Process: Cultural Influences
Competency: Domains of Learning and Performance
Competency: Novice to Expert Continuum and Performance
Communication: Effective Skills
Communication: Feedback and Managing Conflict
Precepting in Action: Assessing and Setting Goals
Precepting in Action: Developing and Implementing a Coaching Plan
Precepting in Action: Evaluating Performance
Supporting the Preceptee: The Learning Environment
Supporting the Preceptee: Assignments and Time Management
Critical Thinking: Developing and Fostering the Skill
Critical Thinking: Application and Evaluation

ReadyRN: Disaster Nursing and Emergency Preparedness

Total Lessons: 26/CE Hrs: 25

Pandemic Influenza and Novel H1N1 Influenza A
Essentials of Disaster Planning
The Federal Disaster Response Network
Psychosocial Impacts of Disaster
Legal and Ethical Issues
Communication: The Role of the Media
Overview of Disaster Management
Disaster Triage
Shelter Nursing
Restoring Public Health
Managing External Emergencies
Management of Psychosocial Effects
Care of Children During Disasters
Natural Disasters
Environmental Disasters and Emergencies
Biological and Chemical Terrorism
Surveillance Systems for Bioterrorism
Biological Agents of Concern
Emerging Infectious Diseases
Early Recognition of Biological Events
Establishing Clinics for Mass Immunization
Chemical Agents of Concern
Radiological Incidents and Emergencies
Burn Recognition and Management
Decontamination and PPE
Explosive and Traumatic Injuries

The Joint Commission/OSHA Compliance Course

Total Lessons: 63

February 2011

Wound Management

Total Lessons: 10/CE Hrs: 19.2

Wound Healing
Wound Evaluation
Arterial Wounds
Venous Wounds
Neuropathic Wounds
Pressure Ulcers
Atypical and Dermatological Wounds
Dressings
Debridement
Biophysical Technologies

Mosby's Medical Terminology

Total Lessons: 128

CE Credits: AHIMA, 32 — *Basic and Plus*; AAPC, 19 — *Med Term Plus*

Basic Medical Terminology (33 lessons)
Medical Terminology Plus (95 lessons)

Introduction to Health Professionals

Health professionals play an important role in today's complex and rapidly changing healthcare environment. Making up more than half of the total healthcare workforce, health professionals are a diverse group who supply a wide range of direct patient care.

Elsevier | MC Strategies offers education that creates the foundation that health professionals need to provide safe, quality patient care and focuses on helping practitioners keep up with the dynamic topics in healthcare today.

ACLS Blended Learning Solution	Total Lessons: 10
CE Hrs: ANCC: 12.79; CME: 12.3; CRCE: 12.79	

- The ABCDs of Emergency Cardiac Care
- Airway Management: Oxygenation and Ventilation
- Rhythm Recognition
- Electrical Therapy
- Vascular Access and Medications
- Acute Coronary Syndromes
- Stroke and Special Resuscitation Situations
- Putting It All Together
- Case Studies
- Case 1: Respiratory arrest
- Case 2: Pulseless ventricular tachycardia/ventricular fibrillation with an AED
- Case 3: Pulseless ventricular tachycardia/ventricular fibrillation
- Case 4: Asystole
- Case 5: Pulseless electrical activity
- Case 6: Acute Coronary Syndromes
- Case 7: Symptomatic bradycardia
- Case 8: Unstable tachycardia
- Case 9: Stable tachycardia
- Case 10: Acute ischemic stroke
- Final Exam

Mosby's Anatomy & Physiology for Health Professionals	Total Lessons: 26
	CE Credits: AHIMA, 11; AAPC, 9

- Neuromuscular System (6 lessons)**
- Endocrine System (4 lessons)**
- Cardiovascular System (3 lessons)**
- Circulation (4 lessons)**
- Respiratory System (3 lessons)**
- Digestive System (4 lessons)**
- Urinary System (2 lessons)**

Mosby's Pathophysiology for Health Professionals	Total Lessons: 26
	CE Credits: AHIMA, 13

- Pathophysiology: Inflammation
- Pathophysiology: Genes and Genetic Disease
- Pathophysiology: Altered Cellular and Tissue Biology
- Pathophysiology: Fluid and Electrolytes
- Pathophysiology: Immunity
- Pathophysiology: Hypersensitivities
- Pathophysiology: Infection
- Pathophysiology: Immunodeficiencies
- Pathophysiology: Biology of Cancer I
- Pathophysiology: Biology of Cancer II
- Pathophysiology: Alterations of Neurologic Function I
- Pathophysiology: Alterations of Neurologic Function II
- Pathophysiology: Alterations of Hormonal Regulation I
- Pathophysiology: Alterations of Hormonal Regulation II

February 2011

Mosby's Pathophysiology for Health Professionals (cont.)

Total Lessons: 26
CE Credits: AHIMA, 13

Pathophysiology: Alterations of Hematologic Function I
Pathophysiology: Alterations of Hematologic Function II
Pathophysiology: Alterations of Cardiovascular Function I
Pathophysiology: Alterations of Cardiovascular Function II
Pathophysiology: Alterations of Cardiovascular Function III
Pathophysiology: Alterations of Pulmonary Function
Pathophysiology: Alterations of Renal and Urinary Tract Function
Pathophysiology: Alterations of the Reproductive Systems I
Pathophysiology: Alterations of the Reproductive Systems II
Pathophysiology: Alterations of Digestive Function I
Pathophysiology: Alterations of Digestive Function II
Pathophysiology: Alterations of Musculoskeletal Function

Mosby's Human Body Essentials for Health Professionals

Total Lessons: 52
CE Credits: AHIMA, 24; AAPC, 9

Neuromuscular System (6 lessons)
Endocrine System (4 lessons)
Cardiovascular System (3 lessons)
Circulation (4 lessons)
Respiratory System (3 lessons)
Digestive System (4 lessons)
Urinary System (2 lessons)
Pathophysiology (26 lessons)

Mosby's Medical Terminology

Total Lessons: 128
CE Credits: AHIMA, 32 — Basic and Plus; AAPC, 19 — Med Term Plus

Basic Medical Terminology (33 lessons)
Medical Terminology Plus (95 lessons)

Mosby's Medical Imaging CE

Total Lessons: 79
CE Credits: ASRT 84.5

ASRT: CT Basics (Module 1): Fundamentals
ASRT: CT Basics (Module 2): Equipment and Instrumentation
ASRT: CT Basics (Module 3): Data Acquisition
ASRT: CT Basics (Module 4): Image Processing and Reconstruction
ASRT: CT Basics (Module 5): Patient Safety
ASRT: CT Basics (Module 6): Image Quality
ASRT: CT Basics (Module 7): Procedures
ASRT: CT Basics (Module 8): Cross-sectional Anatomy of the Head and Neck
ASRT: CT Basics (Module 9): Cross-sectional Anatomy of the Chest, Abdomen, and Pelvis
ASRT: CT Basics (Module 10): Additional Applications
Cardiovascular/Interventional: Twelve-Lead ECG
General Radiography: Hepatitis C
General Radiography: Inflammatory Bowel Disease
General Radiography: Low-Dose Spiral CT
General Radiography: Lower Extremity Radiography
General Radiography: Nonmelanoma Skin Cancer
General Radiography: Osteosarcoma
General Radiography: Pediatric Imaging of the Upper Gastrointestinal Tract
General Radiography: Pediatric Otolaryngology and Radiography
General Radiography: Sentinel Lymph Node Biopsy
General Radiography: Stem Cell Transplants
General Radiography: Stereotactic Radiosurgery
General Radiography: Understanding Ovarian Cancer
General Radiography: Upper Extremity Radiography

Magnetic Resonance: Basic MRI Principles
Magnetic Resonance: MRI Image Quality, Artifacts and Imaging Parameters
Magnetic Resonance: MRI Patient Care and Safety
Magnetic Resonance: Understanding Electromagnetism and Vectors
Mammography: Breast Disease in Men
Nuclear Medicine: Basic Radiation Safety in Nuclear Medicine Radiation Protection
Nuclear Medicine: Sending and Receiving Radioactive Shipments
Nuclear Medicine: The History and Applications of Ionizing Radiation and Radiation Biology
Patient Care: Nutritional and Pharmacologic Management of Type 2 Diabetes
Patient Care: Nutritionally Managing Menopause and Osteoporosis
Positron Emission Tomography (PET): Fundamentals of PET/CT
Positron Emission Tomography (PET): PET Physics
Professional Development: Bringing Back the Passion
Professional Development: Complaint Resolution
Professional Development: Ethics for Healthcare Professions
Professional Development: Legalities of Medicine
Professional Development: Patient Communication in the Healthcare Climate
Professional Development: Renewing the Commitment
Radiation Therapy: Topical Ointments in Radiation Therapy
Radiation Therapy: Understanding Radiation Therapy
Radiobiology & Radiation Protection: Biological Effects of Radiation
Radiobiology & Radiation Protection: Cancer Risk Due to Radiation Exposure
Radiobiology & Radiation Protection: Carcinogenesis
Radiobiology & Radiation Protection: Cell Division and Radiosensitivity
Radiobiology & Radiation Protection: Fundamentals of Radiation Safety
Radiobiology & Radiation Protection: Genetics and Genetic Damage
Radiobiology & Radiation Protection: Human Cellular Composition and Radiation
Radiobiology & Radiation Protection: Personnel Monitoring and Radiation Protection Measures
Radiobiology & Radiation Protection: Quantifying Radiation Effects
Radiobiology & Radiation Protection: Radiation Biology
Radiobiology & Radiation Protection: Radiation Dose and Responses of the Human Body
Radiobiology & Radiation Protection: Radiation Exposure: Genetic Effects, Risks and Current Research
Radiobiology & Radiation Protection: Radiation Interactions
Radiobiology & Radiation Protection: The Hematopoietic, Gastrointestinal and Cerebrovascular Syndromes
Radiobiology & Radiation Protection: Total Body Irradiation
Radiographic Imaging: Concepts of Distortion and Magnification
Radiographic Imaging: Controlling Scatter and Low-Energy Photons
Radiographic Imaging: Digital Imaging
Radiographic Imaging: Factors Affecting Imaging
Radiographic Imaging: Film Processing and Quality Assurance
Radiographic Imaging: Intensifying Screens and Radiographic Film
Radiographic Imaging: Optimizing the Radiographic Beam
Radiographic Imaging: Properties of Film/Screen Interaction
Radiographic Imaging: Ratios and Proportions in Medical Imaging
Radiographic Imaging: Technique Formulation
Radiographic Imaging: The Photon's Journey: From Tube to Film
Radiographic Imaging: Understanding the Radiographic Image
Radiologic Physics: Radioactivity and X-Ray Interactions
Radiologic Physics: X-Ray Circuit: Design, Function and Use
Radiologic Physics: X-Ray Production
Sonography: Breast Sonography: A Sound Approach
Sonography: Diagnostic Ultrasound Physics: Resolution Seen Clearly
Sonography: Intracranial Hemorrhage in the Preterm Infant
Sonography: New Techniques in Gray-Scale Imaging
Sonography: Ultrasound Evaluation of the HIV-Positive Patient

Introduction to Professional Development

Elsevier | MC Strategies understands the needs of our clients, and we are committed to delivering the highest quality solutions possible. Elsevier | MC Strategies offers Professional Development and IT solutions to healthcare organizations nationwide to meet the performance and productivity improvement objectives for healthcare professionals. In partnership with **MindLeaders**, MC Strategies offers hundreds of Professional Development, Business Skills, IT and Desktop courses with pricing solutions that allow you to create a customized curriculum package to meet your organizational education needs.

HIMSS Health Information Technology Solutions (Coming Soon)

The robust coursework within the HIMSS Health Information Technology Solutions blends information technology and healthcare content to offer progressive and measurable learning experiences. In addition, the HIMSS coursework offers unique training for specialized areas of healthcare IT and management systems not offered anywhere else. Some of these training areas include project management, clinician-focused use of information technology, IT customer service to the healthcare user, and healthcare IT strategic planning.

Introduction to Coding

The Revenue Cycle, Coding and Compliance curriculum supports a lifetime of professional learning by offering both new and experienced professionals the opportunity to expand their knowledge and skills while earning continuing education credits to support credentials through a variety of accrediting bodies, such as AAPC, AHIMA and ACMCS. Partnering with nationally recognized experts, such as the American Hospital Association (AHA) and Coding Metrix, allows MC Strategies to offer the most authoritative and comprehensive content in the industry.

Coding Metrix — Interventional Radiology Curriculum

Total Modules: 32/8 tests

CE Credits: AHIMA 30, AAPC 15, RCCB 34, ACMCS 30

Interventional Radiology Curriculum Pre-Assessment
Principles of Arterial Catheterization (5 modules, 1 course test)
Diagnostic Imaging (5 modules, 1 course test)
Non-Arterial Vascular Procedures (6 modules, 1 course test)
Transcatheter Therapies (6 modules, 1 course test)
Non-Vascular Interventions (6 modules, 1 course test)
Endovascular Repair (4 modules, 1 course test)
Interventional Radiology Curriculum Post-Assessment

Coding Metrix — Invasive Cardiology Curriculum

Total Modules: 27/7 tests

CE Credits: AHIMA 23, AAPC 11, ACMCS 23

Invasive Cardiology Curriculum Pre-Assessment
Diagnostic Cardiac Catheterization (9 modules, 1 course test)
Percutaneous Coronary Interventions (4 modules, 1 course test)
Peripheral Angiography (6 modules, 1 course test)
Peripheral Interventions (6 modules, 1 course test)
Peripheral Procedures with Heart Catheterization (2 modules, 1 course test)
Invasive Cardiology Curriculum Post-Assessment

Coding Metrix — Pathology Curriculum

Total Modules: 11/6 tests CE Credits: AHIMA 15, AAPC 7.5, ACMCS 15

Pathology Curriculum Pre-Assessment
Diagnosis Coding for Pathology (3 modules, 1 course test)
Surgical Pathology (3 modules, 1 course test)
Other Pathology Services (3 modules, 1 course test)
Pathology Curriculum Post-Assessment

Coding Metrix — Radiation Oncology Curriculum

Total Modules: 16/9 tests CE Credits: AHIMA 28, AAPC 14.5, ACMCS 28

Radiation Oncology Curriculum Pre-Assessment
Patient Visits – Hospital (2 modules, 1 course test)
Diagnosis Coding (2 modules, 1 course test)
External Beam Radiation Therapy (2 modules, 1 course test)
Intensity Modulated Radiotherapy (2 modules, 1 course test)
Stereotactic Radiation Therapy (4 modules, 1 course test)
Brachytherapy (2 modules, 1 course test)
Radiopharmaceutical Procedures (2 modules, 1 course test)
Radiation Oncology Curriculum Post-Assessment

Coding Metrix — Pain Management

Total Modules: 25/9 tests CE Credits: AHIMA 32, AAPC16, ACMCS 32

Pain Management Curriculum Pre-Assessment
Patient Visits (4 modules, 1 course test)
Diagnosis Coding for Pain Management (3 modules, 1 course test)
Spinal Procedures I (2 modules, 1 course test)
Spinal Procedures II (4 modules, 1 course test)
Other Chronic Pain Injections (5 modules, 1 course test)
Implanted Pumps and Neurostimulators (2 modules, 1 course test)
Other Chronic Pain Procedures (5 modules, 1 course test)
Pain Management Curriculum Post-Assessment

Coding Metrix — Diagnostic Radiology

Total Modules: 38/11 tests CE Credits: AHIMA 41, AAPC 20.5, RCCB 41, ACMCS 41

Diagnostic Radiology Curriculum Pre-Assessment
Radiology Compliance (5 modules, 1 course test)
ICD-9-CM Diagnosis Coding (3 modules, 1 course test)
Plain Films and Fluoroscopy (9 modules, 1 course test)
Ultrasound (5 modules, 1 course exam)
Breast Procedures (2 modules, 1 course test)
CT/CTA (2 modules, 1 course test)
MRI/MRA (2 modules, 1 course test)
PET/PET CT (1 module, 1 course exam)
Nuclear Medicine (9 modules, 1 course test)
Diagnostic Radiology Curriculum Post-Assessment

Coding Metrix — Medical Oncology Curriculum

Total Modules: 11/5 tests CE Credits: AHIMA 13, AAPC 7, ACMCS 13

Medical Oncology Curriculum Pre-Assessment
Patient Visit Guidelines (2 modules, 1 course test)
Diagnosis Coding (2 modules, 1 course test)
Infusions and Injections (7 modules, 1 course test)
Medical Oncology Curriculum Post-Assessment

AHA Coding Suite

Total Lessons: 114 CE Credits: AHIMA 77, AAPC 8.5 ACMCS 70.5

AHA Coding Clinic for ICD-9-CM™ Applications (52 lessons)
AHA Coding Clinic for HCPCS Applications (22 lessons)
AHA Coding Clinic for HCPCS™ Applications (26 lessons)
2010 Faye Brown's ICD-9-CM Coding Handbook (36 lessons)

Introduction to Regulatory Compliance

Education in healthcare finance enables your organization to run ethically, legally and efficiently. Organizations must keep an eye on problem areas that may put it at risk for implications of noncompliance with federal and state regulations in addition to payer rules. Being informed on how compliance relates to reimbursement can help your organization optimize its cash flow and protect itself from misconduct. MC Strategies' expert-authored courses, along with courses from industry partnerships, can help your organization's revenue cycle while keeping up with the industry's regulatory changes.

EduCode® Regulatory Essentials Total Lessons: 22 CE Credits: AHIMA 22, ACMCS 22

Total Courses: 6

Privacy (Part 1): Introduction to HIPAA
Privacy (Part 2): Uses and Disclosures
Privacy (Part 3): Authorizations
Transactions and Code Sets
Security
A Day in the Life of a Patient: A HIPAA Review

Introduction to Finance and the Revenue Cycle

Hospitals struggle in today's environment to have a healthy bottom line. Inappropriate claim submission can impact revenue and put a hospital at risk for compliance-related sanctions. Finance and Revenue Cycle content will help hospitals understand the complex payment systems involved with healthcare, and help to ensure that executives and frontline staff have necessary and timely financial and revenue cycle education available when they need it. In addition to content written by our internal subject matter experts, our Revenue Cycle, Coding and Compliance Division enjoys a content partnership with the Healthcare Financial Management Association (HFMA), a trusted name in the industry.

EduCode® Reimbursement Essentials

Total Lessons: 39 CE Credits: AHIMA 31, AAPC 9.5, ACMCS 30.25

Outpatient Prospective Payment System (OPPS) (10 lessons)
Inpatient Prospective Payment System (IPPS) (12 lessons)
Quality Programs Affecting Reimbursement (7 lessons)
Auditing and Review (3 lessons)
Revenue Cycle Orientation (7 lessons)

HFMA Mastering Patient Access

Total Courses: 12

Scheduling (Part 1)
Scheduling (Part 2)
Preregistration
Registration (Part 1)
Registration (Part 2)
Registration (Part 3)
Validation of Demographic and Insurance Information
Insurance Verification and Coordination of Benefits
Precertification
Claims Denial Management (Part 1)
Claims Denial Management (Part 2)
Claims Denial Management (Part 3)

Content Partners

Elsevier | MC Strategies is strategically partnered with key healthcare content providers. These partnerships enable us to jointly develop courses that can be delivered by our learning management system.

American Hospital Association (AHA)

The American Hospital Association (AHA) is the national organization that represents and serves all types of hospitals, healthcare networks, and their patients and communities. Close to 5,000 hospitals, healthcare systems, networks, other providers of care and 37,000 individual members come together to form the AHA.

Emergency Nurses Association (ENA)

ENA is a professional member organization recognized internationally for promoting excellence in emergency nursing through leadership, research, education and advocacy. The Association actively collaborates with other health-related organizations to improve emergency care, including identifying and disseminating information on key trends affecting and pertinent to emergency nursing.

National Nursing Staff Development Organization (NNSDO)

The purpose of NNSDO is to foster the art and science of nursing staff development, promote the image and professional status of nursing staff development, encourage and support nursing research and application of research findings in practice, and provide a platform for nurses engaged in staff development practice to discuss issues and make decisions related to the continuing evolution of the field of nursing staff development.

Distribution Partners

Elsevier | MC Strategies has distribution partnerships with leading content providers, allowing us to deliver accredited, expert-authored e-learning solutions through our learning management system, specifically designed for healthcare. Our LMS not only delivers and tracks e-learning, but also schedules, tracks and generates reporting for all your other learning activities, including classroom training, outside seminars, skill checks and competencies. It was the first learning management system with the designation Peer Reviewed by HFMA.

American Association of Critical-Care Nurses (AACN)

Elsevier | MC Strategies and AACN are committed to providing the highest quality training resources to maximize your nursing staff's contribution to patient care, improving the health of critically ill patients and providing the necessary consideration for their families. Together, we offer the Essentials of Critical Care Orientation (ECCO) e-learning program to aid in the continued education of critical care nurses.

American Hospital Association (AHA)

The American Hospital Association (AHA) is the national organization that represents and serves all types of hospitals, healthcare networks, and their patients and communities. Close to 5,000 hospitals, healthcare systems, networks, other providers of care and 37,000 individual members come together to form the AHA.

Association of Perioperative Registered Nurses (AORN)

AORN is a professional association that empowers the OR nurse with education, standards of practice, and peer networking.

Apex Innovations

Apex Innovations, which is headquartered in Lafayette, LA, designs, manufactures, and provides unique tools, software, competencies, resources, and educational Web-based programs for individuals, universities, organizations, and corporations around the world. Elsevier | MC Strategies has forged a partnership with Apex Innovations to distribute impULSE ECG, a Web-based, highly interactive ECG and chest pain education and competency program addressing the educational needs of all levels of staff from monitor techs to physicians.

Coding Metrix

The Coding Metrix mission is to provide exceptional medical coding training that supplies both healthcare organizations and individuals with the knowledge, skills, and practical applications of specialty-specific coding.

Healthcare Financial Management Association (HFMA)

The nation's leading membership organization for healthcare financial management professionals, HFMA brings perspective and clarity to the industry's complex legislative and financial management issues.

MindLeaders

MindLeaders is a global leader in the development of e-learning content, known for the excellence of their training content in the areas of professional development, management skills, and computer applications. Their innovative use of blended learning combines Web-based training with video streaming and scenario-based training to enhance the learner's experience.

Continuing Education

Our learners have a number of educational opportunities to advance their careers through online continuing education both at home and at work. Our course content consists of expert-authored lessons designed specifically for busy healthcare professionals. The following is a listing of the accredited continuing education providers that award the CE credit and the organizations that approve courses for credit:

American Academy of Professional Coders (AAPC)

The American Academy of Professional Coders (AAPC) is the nation's largest medical coding certification body with more than 58,000 credentialed coders. AAPC's certifications allow medical coders, billers, and other healthcare professionals to demonstrate superior knowledge and expertise of current outpatient medical coding principles and validate their proficiency in coding accurately and efficiently. The medical coding profession requires continual education to stay current with medical coding updates, compliance rules, and government regulations. AAPC supports its members to maintain a distinctive edge in their medical coding career by providing multiple opportunities for certified coders to attain their required Continuing Education Units (CEUs). MC Strategies offers pre-approved continuing education credits for AAPC credentials, when appropriate. Learners are able to immediately print a continuing education certificate showing the number of continuing education credits earned by completing specified online courses. Certificates include an index number, name of sponsoring organization, course title, number of CEU approved, and the date completed.

The courses identified in the catalog with AAPC CEU received prior approval of the American Academy of Professional Coders for the stated Continuing Education Units. The CEU is awarded when the course is completed within the period of approval. The period of approval can be found on the course's lesson information pages online.

Granting of this approval in no way constitutes endorsement by the Academy of the program content or the program source.

American Association of Critical-Care Nurses (AACN)

The American Association of Critical-Care Nurses (AACN) is accredited as a provider of continuing nursing education (CNE) by the American Nurses Credentialing Center's Commission on Accreditation.

AACN has been approved as a provider of continuing education in nursing by the State Boards of Nursing of Alabama (#ABNP0062), Louisiana (#12), and California (#01036). AACN programming meets the standards for most other states requiring mandatory continuing education credit for relicensure.

American College of Medical Coding Specialists (ACMCS)

ACMCS is a not-for-profit professional coders organization developed solely for its members. ACMCS is committed to helping members achieve their highest level of competence as professional coders. To fulfill that commitment, the ACMCS has adopted Professional Competencies to be mastered by members. They range from coding and regulatory expertise to a holistic approach for our profession by expanding the educational opportunities for professional growth in many areas of business. Continuing Education credits for maintenance of ACMCS credentials are now available through MC Strategies elearning,

American Health Information Management Association (AHIMA)

Certification is a means for showing that a credentialed professional possesses the knowledge and skills necessary for the optimal performance of his or her job. Through credentialing, the practitioner's employer, peers, and the public are reassured that he or she is both competent and well-informed in the daily and accurate administration of his or her professional duties. The American Health Information Management Association (AHIMA) has more than 53,000 members and offers credentials in the following areas:

- *Health Information Management*
- *Coding*
- *Healthcare Privacy and Security*
- *Health Data Analytics*

In order to maintain certification through AHIMA, credentialed individuals are required to comply with the continuing education standards as set forth by the Council of Certification (COC). MC Strategies obtains prior approval of continuing education credits from AHIMA whenever possible. This process ensures that you are provided a confirmed number of CEUs, that the content association with the CEUs meets AHIMA standards and that the ability to print a CEU certificate immediately after completion of a lesson will aid in a smooth submission of proof of CEUs to AHIMA.

The courses with prior approval for CEUs may be used to fulfill the continuing education requirements of the American Health Information Management Association (AHIMA) when completed during the period of approval. The period of approval can be found on the course's lesson information pages online.

Continuing Education Coordinating Board for Emergency Medical Services (CECBEMS)

All course content is accredited by the Continuing Education Coordinating Board for Emergency Medical Services (CECBEMS). Topic areas are based on the National Registry of Emergency Medical Technicians (NREMT) EMT-Basic Refresher Categories; courses also meet NREMT-Paramedic Refresher requirements.

Contemporary Forums

This activity has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Contemporary Forums and Elsevier/Mosby Office of Continuing Nursing CE. Contemporary Forums is accredited by the ACCME to provide continuing medical education for physicians.

Elsevier/Mosby's Office of Continuing Education*

Elsevier/Mosby is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Elsevier/Mosby's accreditation status does not imply endorsement by Elsevier/Mosby or ANCC of any commercial product discussed/presented in a continuing education activity.

Expiration Date: Elsevier/Mosby's online activities remain active as long as they are available online. Activities are updated when there is a change in regulatory or professional practice standards/guidelines; or at least every two years following its release or its last review date. The last review date appears on the Lesson Info page for each online lesson.

Elsevier/Mosby is provider approved by the Florida Board of Nursing. The Florida provider number is #50-4681. Elsevier/Mosby is provider approved by the California Board of Registered Nursing. The California provider number is CEP 3257.

Emergency Nurses Association**

Emergency Nurses Association: Emergency Nursing Orientation Online

The Emergency Nurses Association is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

California Continuing Education Provider #CEP2322.

HFMA Content

Each learner may submit to his/her State Board of Accountancy completed HFMA e-learning lessons for Continuing Professional Education credit (CPEs) under "self-study." Each state determines what it will accept. To submit for credit, the learner or learner's supervisor must validate (list) the completed e-learning lessons with an approximate time of 15 minutes per lesson. It is up to each state to determine what amount of time they will actually award under self-study. CPE units for e-learning are not awarded through HFMA.

**The Impulse ECG activity has been planned and implemented in accordance with the Essential Areas and Policies of the Louisiana State Medical Society through the joint sponsorship of the CME of Acadiana and Apex Innovations. The Continuing Medical Education Committee of Acadiana is accredited by the Louisiana State Medical Society to provide continuing medical education for physicians. CME of Acadiana designates this educational activity for a maximum of 23 AMA PRA Category 1 Credits. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The Impulse continuing nursing education activity is approved by Louisiana State Nurses Association (LSNA), an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. This continuing education activity is approved by Apex Innovations, an organization accredited by the Continuing Education Board for Emergency Medical Services (CECBEMS) for up to 25 CEHs.

The Wound Management course has been approved for 1.9 CEUs by the Physical Therapy Association of Georgia.

MindLeaders

*** MindLeaders provides a variety of continuing education options, including general continuing education programs offered through partnerships with accredited colleges and universities, and continuing education programs for professionals licensed by state boards. The accrediting bodies include PMI-certified Project Management Professionals (PMP), Accountancy Board of Ohio, Colorado State Board of Accountancy, Connecticut State Board of Accountancy, New Jersey Department of Education, Pennsylvania State Board of Accountancy, Texas State Board of Educator Certification (SBEC), and Otterbein College. For MindLeaders courses, the number of CEUs earned will vary based on course length and course subject. This detail and all necessary forms, including the CEU application, score verification and course evaluation forms, are available from the navigate bar within each MindLeaders' course.

National Association of Healthcare Access Management (NAHAM)

NAHAM is the credentialing body for the ***Certified Healthcare Access Manager (CHAM)*** or ***Certified Healthcare Access Associate (CHAA)***. NAHAM standards dictate that Certified Healthcare Access Managers participate in the CHAM Certification Maintenance Program, in order to retain their CHAM credentials. The rules and regulations of the CHAM Certification Maintenance Program are administered by NAHAM's Board of Directors and its Certification Commission. The CHAM Certification Maintenance Program requires that CHAM certificants engage in appropriate educational activities on subjects relevant to the field of patient access services and obtain a minimum number of contact hours of credit during a two-year cycle. Fulfilling these requirements demonstrates the CHAM certificant's efforts to strive for expanded knowledge – a core tenet of the CHAM program. Certain content delivered by MC Strategies' Learning Management System has been approved by NAHAM for continuing education credits.

Radiology Coding Certification Board (RCCB®)

RCCB is accredited by the National Commission for Certifying Agencies (NCCA). The certifying agency that qualifies for this accreditation has met the stringent standards of certification psychometric science and has the policy and procedures in place to ensure high standards of security, confidentiality, examination procedure, and fairness. This accreditation places RCCB among the highest ranked certifying agencies in the country. An RCCB may recertify by either retaking the examination or by obtaining continuing education credits (CEU) in radiology coding. Submission standards for continuing education are found on the RCCB website. Prior approval of RCCB continuing education is available for Coding Metrix Interventional Radiology and General Radiology curricula, delivered by the MC Strategies' Learning Management System.

**Summary
 Courses and Continuing Education Credit Hours**

Course	The Organization Awarding Credit Hours or has Approved the Course for Credit Hours
